

CADRO HR

English Product Presentation (IP-Safe, Client-Facing)

Why this platform matters:

- Working HR platform with broad module coverage
- Live web presence at cadro.io with SEO-ready content structure
- Multilingual capability (TR / EN / AR) with fast dictionary expansion potential
- Clear commercial model and ROI scenarios

Built to be adopted quickly, expanded globally, and protected commercially.

Why CADRO should be in the market

Operational need + language reach + scalable product footprint

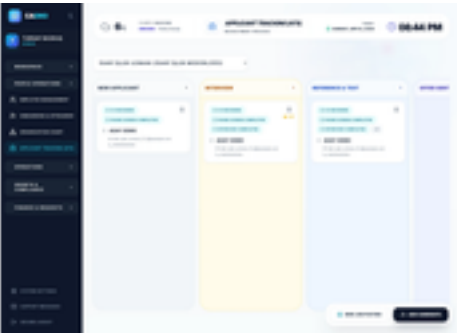

- SMEs need integrated HR operations, not fragmented tools
- CADRO already delivers core HR flows in one platform
- Multilingual support enables immediate regional relevance
- Dictionary/glossary structure can be expanded fast for new countries
- cadro.io is live and supports SEO-driven demand capture

ROI anchor	Base: ~10.2 months payback
Upside	Aggressive: ~5.2 months payback
Business model	Subscription + module upsell
Go-global path	Language expansion over existing core

IP Safety: This presentation is intentionally high-level. Internal architecture and source-level mechanics are excluded.

Why buy / adopt / scale CADRO

A balanced proposition: strong commercial upside without unnecessary IP exposure

- Proven module coverage across HR operations
- High-quality UI evidence across modules and workflow states
- Live market presence and SEO-ready site structure
- Multilingual growth path with fast dictionary expansion
- Modeled ROI and clear commercialization options

Next step: commercial due diligence and buyout / partnership structure discussion.
