

CADRO

Human Resources Management System

CADRO.IO

HR Challenge 1

Fragmented Employee Data

- Duplicate employee records create payroll **inconsistencies** and reporting **confusion**
- Onboarding and offboarding steps are **missed** because ownership is **not centralized**
- Management **cannot trust** one single source of truth for workforce decisions

HR Challenge 2

Slow and Opaque Workflows

- Recruitment, purchase, and internal requests stall due to **unclear** approval paths
- Support and operational requests are **lost** between channels
- Cycle times increase while accountability **decreases** across teams

HR Challenge 3

Compliance and Capability Gaps

- Policy acknowledgement and document control are **difficult** to audit
- Training visibility is limited, making compliance readiness **weaker**
- Distributed locations operate with **inconsistent** standards and **low** transparency

How CADRO HRMS Solves These Challenges

CADRO HRMS

- Challenge 1 -> Employee Management, Onboarding & Offboarding, E-Dossier
- Challenge 2 -> ATS, Purchase Requests, Corporate Request Forms, Support Messages
- Challenge 3 -> Training (LMS), Knowledge Base & Policies, Locations & Sites
- Result -> Standardized execution, traceable operations, faster HR decisions

No reusable checklist items have been added for this process yet.

What it does: Runs onboarding lifecycle with structured checklists and readiness status.

What it fixes: Fixes first-week process gaps and inconsistent handovers.

Business impact: Accelerates time-to-productivity for new hires.

Step: Applicant Tracking (ATS)

What it does: Visualizes candidates across hiring stages in one pipeline.

What it fixes: Fixes candidate loss and non-transparent hiring progression.

Business impact: Shortens time-to-hire and improves hiring quality.

What it does: Tracks assignment, stock, and return state for company assets.

What it fixes: Fixes ownership ambiguity and missing handover records.

Business impact: Reduces asset loss and replacement cost.

Purchase Requests

The screenshot displays the CADRO Cockpit Corporate Management interface. The top navigation bar includes the CADRO logo, user information (TURGAY BOZKUŞ ADMIN), and system status (6°C, ANKARA - Partly Cloudy, COCKPIT CORPORATE MANAGEMENT, SUNDAY, APR 12, 2026, 08:45 PM). The main dashboard features three summary cards: TOTAL AWAITING ACTION (1, 5900.00 TRY), APPROVED REQUESTS (0), and REJECTED REQUESTS (0). A '+ NEW PURCHASE REQUEST' button is also present. Below these, a search and filter section is visible. The main content area shows a 'CURRENT VIEW TOTAL: 1' for a purchase request from 'Masa TURGAY BOZKUŞ' for 5900.00 TRY. The request details include the vendor 'Amazon', quantity and unit price '1 x 5900.00', and a note 'Ofis için ihtiyaç duyulmaktadır.' The request is currently 'PENDING' and has a 'Finance Approver: TURGAY BOZKUŞ' with a 'Needed By: 2026-04-30' deadline. There are 'APPROVE' and 'REJECT' buttons at the bottom.

What it does: Standardizes request-to-approval purchasing workflow.

What it fixes: Fixes untracked procurement and uncontrolled spend requests.

Business impact: Improves budget governance and approval speed.

WORKFLOW

This request is routed to the HR owner's work queue. If no assignment exists, the process continues with admin or superadmin.

NO OUTCOME NOTE ENTERED YET.

What it does: Digitizes internal request forms with clear workflow ownership.

What it fixes: Fixes free-format request chaos and missed follow-ups.

Business impact: Increases response consistency and process traceability.

Training (LMS)

The screenshot displays the CADRO Corporate Academy Learning Management System (LMS) interface. The top navigation bar includes the CADRO logo, user information (TURGAY BOZKUŞ ADMIN), and a sidebar menu with options like WORKSPACE, PEOPLE OPERATIONS, OPERATIONS, GROWTH & COMPLIANCE, PERFORMANCE (OKR), TRAINING (LMS), KNOWLEDGE BASE & POLICIES, FINANCE & REQUESTS, SYSTEM SETTINGS, SUPPORT MESSAGES, and SECURE LOGOUT. The main dashboard shows a weather widget for Ankara, a date and time widget (SUNDAY, APR 12, 2026, 08:45 PM), and a 'PARTICIPANTS: 263' indicator. A 'SCHEDULE NEW TRAINING' button is visible. The dashboard features six training cards, each with a 'COMPLETED' status, a title, a description, instructor information, date, time, and participant count. Each card also has 'TAKE ATTENDANCE' and 'CANCEL' buttons, and a 'PARTICIPANT REPORT PDF' link.

Training Title	Instructor	Date	Time	Participants
İLERİ DÜZEY MS WORD EĞİTİMİ	AHMET YILMAZ	4/10/2026	08:00:00	4 PEOPLE
LİDERLİK VE YÖNETİM		3/22/2026	09:00:00	9 PEOPLE
PYTHON İLE VERİ ANALİZİ		3/21/2026	09:00:00	7 PEOPLE

LİDERLİK VE YÖNETİM		3/18/2026		
İŞ SAĞLIĞI VE GÜVENLİĞİ		3/17/2026		

What it does: Organizes trainings, participants, schedules, and completion actions.

What it fixes: Fixes training visibility gaps across teams.

Business impact: Improves capability development and compliance readiness.

Knowledge Base & Policies

What it does: Publishes policies and tracks acknowledgement status.

What it fixes: Fixes policy communication inconsistency and low policy visibility.

Business impact: Strengthens governance and policy adoption.

What it does: Captures support issues via structured ticket submission.

What it fixes: Fixes informal support requests lost in chats and emails.

Business impact: Improves response quality and accountability.

ROI and Commercial Case

- Base scenario payback is around 10.2 months with measurable process gains
- Aggressive scenario payback can approach 5.2 months
- Subscription-led model with module upsell increases lifetime value
- Multilingual readiness (TR / EN / DE / AR) supports regional expansion
- Public digital presence (cadro.io + LinkedIn) strengthens market credibility
